HILL Litter bin

6342

Designed by
Morten&Jonas

Hill litter bin is easy to empty and can also be equipped with a smart sensor system, which indicates when it is time to do just that—a solution that saves both time and resources. The litter bin can be supplied with one or two compartments to facilitate recycling. The bin itself and the top are separate components and can therefore be powder-coated in different colours to create interesting contrasts and effects.

Anchoring/assembly

Free-standing/mounted to the ground

Primary material

Hot-dip galvanised steel

All steel components are hot-dip galvanised, which produces a matt grey surface after a while. We offer a lifetime anti-rust warranty.

Sustainability

Indicators	Global warming	Total energy used	Recycled materials
Unit	kg CO2	MJ	%
Cradle to Gate A1-A3	203	2828	0

Certifications

Intertek
