APRIL litter bin

770

Designed by
Tore Borgersen, Michael Olofsson, Espen Voll

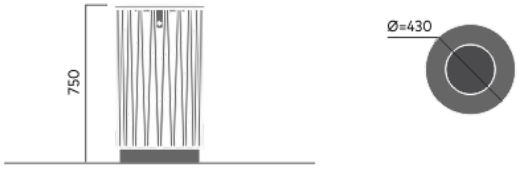

April litter bin is available with fully enclosed or see-through steel sides. The top is angled slightly to allow rainwater to run off. The APRIL litter bin comes in four sizes with different diameters and heights (75, 95, 145 and 175 litres). It is easy to empty by opening the door and removing the bin bag, with no heavy lifting required. A concrete base is recommended if the container is not going to be bolted down.

AWARD FOR DESIGN EXCELLENCE

Anchoring/assembly

Free-standing/mounted to the ground

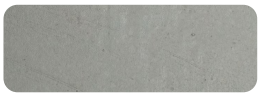

38 kg

Primary material

Hot-dip galvanised steel

All steel components are hot-dip galvanised, which produces a matt grey surface after a while. We offer a lifetime anti-rust warranty.

3 mm
