

# HABITATS Pile

5813A

Designed by  
René Hougaard, ARDE

Habitats pile is part of the Vestre Habitats series, where the products are designed to protect and increase biodiversity in cities. With the Pile bench, excess materials such as large stones and gravel can easily be arranged into small piles of stones. These piles create variations in light, temperature, and humidity. They also store heat from the sun, which is handy for heat-loving insects and reptiles.

78 kg /172 lb

## Anchoring/assembly

Type A - Base plate

## Primary material

Hot-dip galvanised steel

All steel components are hot-dip galvanised, which produces a matt grey surface after a while. We offer a lifetime anti-rust warranty.

## Sustainability

Indicators	Global warming	Total energy used	Recycled materials
Unit	kg CO2	MJ	%
Cradle to Gate A1-A3	0	0	0

## Certifications

## Warranty

- Lifetime warranty against rust
- 15 year warranty on powder coating
- 15 year warranty on wood
- Spare parts always available
